Use Drive File Stream with work or school

If you use the original Google Drive for Mac/PC application, you can uninstall it and install Backup & Sync or Drive File Stream.

[Uninstall Google Drive for Mac/PC](#)

Get started with Drive File Stream

You can find and open files on your computer with Drive File Stream. You can:

- Save specific files on your computer.
- View and organize your files in your computer's file system without using storage space.
- Open files on your computer.

3 [Download & install Drive File Stream](#)

You might not be able to use Drive File Stream, or your organization might install it for you. If you have questions, [ask your administrator](#).

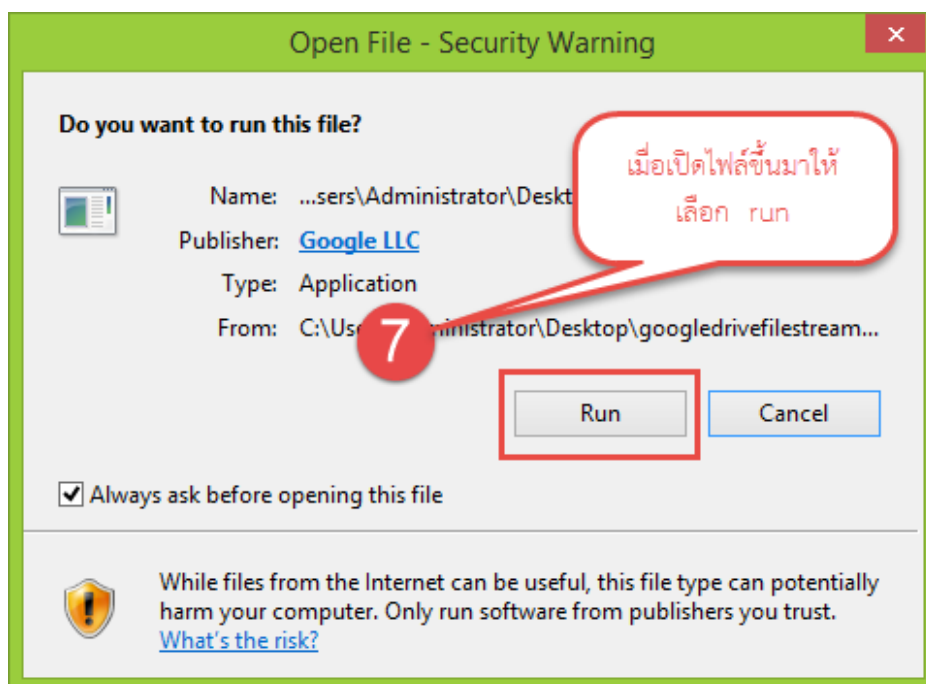

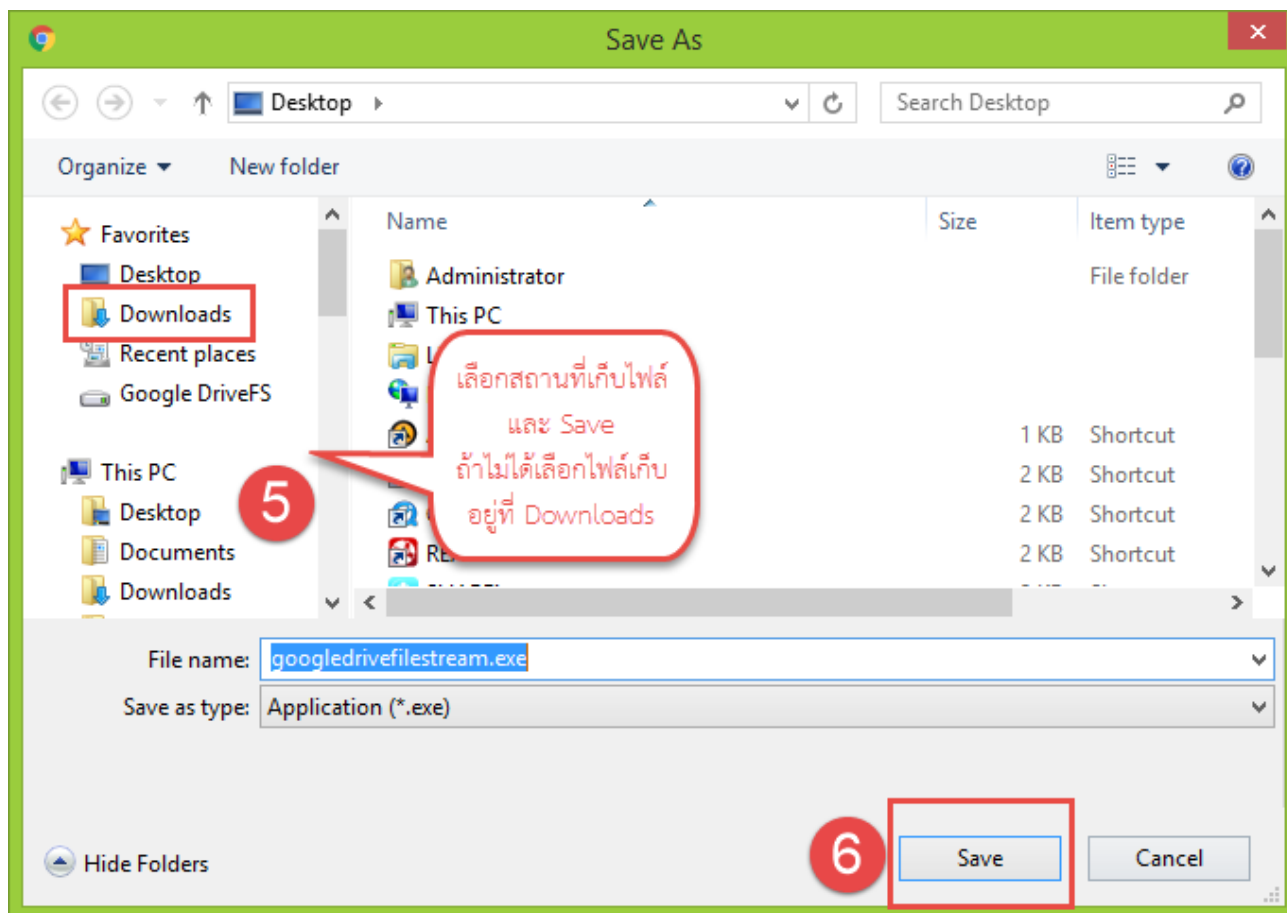

To download Drive File Stream:

4 [DOWNLOAD FOR WINDOWS](#) [DOWNLOAD FOR MAC](#)

1. On your computer, open:

- DriveFileStream
- DriveFileStream
